

# Kids'/Toddler Goat DZ High

Sizing chart for W Kid/Tod **WIDE WIDTH**

|   |                                             |
|---|---------------------------------------------|
| A | Actual foot or brace length                 |
| B | Actual shoe footbed length inside the shoe. |
| C | Actual shoe footbed width at ball of foot   |
| D | Circumference inside shoe at ball of foot*  |
| E | Circumference inside shoe near ankle*       |

\* By removing the inserts inside the shoes, the circumferences will increase 1.3cm - 1.4cm depending on the shoe size selected.

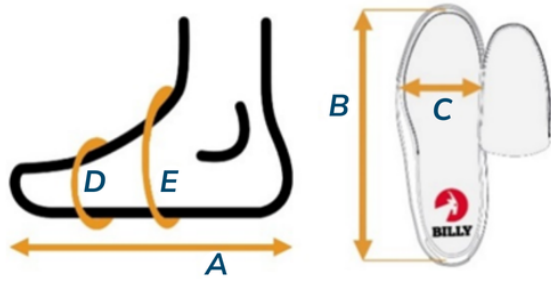

\*\* The measurements shown here were taken with the laces loosely tied. The laces provide adjustability at the "E" location. Tighten laces to achieve desired fit.

| Kids'/Toddler Sizes                                                                 |                   |               | Measurements for Kids'/Toddler Wide Width                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |         |        |         |         |

# Kids'/Toddler Goat DZ High

## Sizing chart for XW Kid/Tod **EXTRA-WIDE WIDTH**

|   |                                             |
|---|---------------------------------------------|
| A | Actual foot or brace length                 |
| B | Actual shoe footbed length inside the shoe. |
| C | Actual shoe footbed width at ball of foot   |
| D | Circumference inside shoe at ball of foot*  |
| E | Circumference inside shoe near ankle*       |

\* By removing the inserts inside the shoes, the circumferences will increase 1.3cm - 1.4cm depending on the shoe size selected.

\*\* The measurements shown here were taken with the laces loosely tied. The laces provide adjustability at the "E" location. Tighten laces to achieve desired fit.
